## Vertabase® Pro among "Best eBusiness Software" and "Best Web Application" winners

---

OAK PARK, MI, February 6, 2006 - Vertabase, a leading developer of productivity-enhancing software solutions, today announced that Sys-Con Media has recognized Vertabase Pro software in its 10th annual Readers' Choice Awards.

The Sys-Con Readers' Choice Awards program, referred to as the "Oscars of the software industry", is a community-driven process in which participating products are nominated by vendors, customers, users and readers of Sys-Com Media publications.

The MX Developer's Journal and ColdFusion Developer's Journal Readers' Choice Awards recognized Vertabase Pro software in the categories of "Best eBusiness Software" and "Best Web Application".

For additional details, please see [http://mx.sys-con.com/read/171303\\_6.htm](http://mx.sys-con.com/read/171303_6.htm).

"We are proud to have been recognized by Sys-Con," said Mark Phillips, CEO, Vertabase. "The MX Developer's and ColdFusion Developer's Journals are highly respected publications. This distinction is additionally important to us because it is driven by actual users. We thank the Sys-Con readership for its support and look forward to serving many of the organizations and individuals within this community," Mr. Phillips added.

### About Vertabase
